

60" STAKE BED KIT

The 60 inch stake bed kit easily mounts to any steel bed John Deere Gator with factory bolt-on composite sides. The kit includes powder coated bed extension, bolt on stake pocket rails and hard wood bed rails. The kit installs in minutes and only requires drilling six 1 1/32" holes (all hardware included).

REPLACEMENT STAKE BED

This 48" wide by 36" long replacement bed simply bolts on to the original factory bed sub-frame of the RSX 850i and 860i as well as both the 2 and 4 seat XUV550, 560 and 590i John Deere Gators.

BED MOUNTED TOOL HOLDERS

Available in both Right or Left side. These all steel powder coated tool holders free up bed space and allow fast access to tools. It easily mounts to any steel bed John Deere Gator with factory bolt-on composite sides using factory bed hardware.

UTV ROCK SLIDERS

Rock Sliders easily mount to John Deere full size cross over utility vehicles using holes in the existing OPS mount at the rear and two front mounting holes in the rocker panel.
