

## ROPS MOUNTED REAR PROTECTION SCREEN

This Rear Screen protects the operator from golf ball strikes in the back. The screen easily mounts to any new style John Deere turf mowers equipped with the round tube ROPS without any modification to the mower. The rear screen mounts using rubber insulated u-bolts at the bottom and bolts directly to the canopy mounts at the top. For machines without a canopy the screen mounts with a third u-bolt and c-bracket at the top. The screen fits all new style John Deere turf mowers equipped with the round tube ROPS including 7200A, 7400A, 7500A, 7700A, 8000A, 8700A, 8800A, 8900A, and 9009A.

## JOHN DEERE 9009A MOWER BALL CAGE

This golf ball protection cage easily mounts to the John Deere 9009A mower without any mower modification.

### Features:

- The cage mounts to the factory ROPS without any modification, maintaining all factory safety standards.
- Large doors provide for easy access to the operator's station. Access to factory entry step and grab handle retained.
- All steel construction with powder coated finish, full frame acrylic windshield and 1" x 1" 10 gauge square mesh.
